**Happy Holy Days my Friends,**

I'm welcoming in Divine December to be a 'homecoming' time "A Rite of Passage for many of us, and I would like us to place a more in-depth focus on Gratitude this month. There is so much to be added to our Gratitude Vortex. Let's keep the vibe high by being on a 'Rampage of Appreciation' all month long. Thanks so much to my clients and friends who sent me such beautiful messages of Gratitude this Thanksgiving.

I am so grateful to each and every one of you that read my newsletters. Thank you for being part of the tribe and my life. Thank you so much to all of you that listen to the podcasts and engage with me via email. I do read each and every email and response that I receive from you.

We will continue this month with the receiving, the giving, and the expressing of even more Gratitude as we welcome-in December of 2020 while giving thanks to a year that has changed everything. Life changed forever for us all in 2020. We have been through so much this year. We are all so exhausted from the relentless and intense energy of collective and evolutionary change.

It's time to pause. It's time to relax and feel the blessings for the journey The astrological weather helps us to do that. With two eclipses bringing to us many endings and **new** beginnings, I for one, am ready for New Soul

beginnings.

How about YOU? I want to remind you *not* to give up on what you know to be true for You and also to remind you to keep your eyes on the big picture. There is still so much being sorted and many things remain quite wobbly.

One thing we can bank on for sure is the energy of: "Uncertainty" is part of the game.

How are you feeling being in these uncertain times?

This energy is inviting us to stay even more open and curious. When I do energy work, I create a space and voice a new mantra to feel and live in.

*I am surrendered to the many present moments of uncertainty. I'm in. I'm all in. This sacred space where love is. I am willing to be the light in the darkness, and live in the unknown, and so it is.*

***What's the most exciting news of the year besides the Solstice?***

***"The Age of Aquarius"***

It's finally here! December 21, 2020, We will be welcoming the long-talked-about Age of Aquarius! It's element is Air. The air energy will be dominant for 200 years. This energy will feel like a breath of fresh air in the "Earth House of Planet Earth". I can't even begin to tell you just how excited I am about *that* news.

Do you feel it too?

***You will see me share more about it as we continue into the next phase of the Age of Aquarius. We're ready for it. It's time we carry on a legacy that represents the truth of who we are. It's time we celebrate good fortune with dignity, after earning deeper levels of self-respect and integrating personal integrity during these huge cycle of completions.***

I wish you a cozy month of coming home.
