Why do people become entrepreneurs?

It used to be because they couldn't stand having a boss, were easily bored or were too creative, according to research. **In the modern world of today the entrepreneur is on the rise, giving birth to the "YOU Economy" with many people having multiple streams of income with ages ranging from 16 to to 90.**

As more people align with core values based on freedom, the driving force to succeed has less to do with the bottom line and more to do with quality of life issues. **Feeling good** about what they're doing becomes the standard. Many people are finding all kinds of ways to supplement their income by doing side hustles that they very much enjoy.

In Segment One of this show, I talk about how I went from **Suicide to Miracle Worker Extraordinaire.**

Suicide is not the answer; Love is the answer, and love heals all. I had no reason to live. I hated myself. I remember this time in my life. I felt so much shame, unworthiness and powerlessness. I felt totally abandoned and betrayed by life and everyone in it. I did not think I could go on, It was too painful and suicide became the solution. When everything was falling apart around me, I

found I was looking outside of myself for approval and hoping someone would come along and save me. At that time I had no way of knowing that the answer was within me.

What you really want to do is kill the pain, not take your own life. The way to kill the pain is to feel the pain. It's only in feeling it that you can heal it. There are no short cuts. To feel is to heal which is a huge process for the body to undertake but being in that deep, deep grief creates a way through to safety and first steps to wholeness.. **September is national suicide month**, and it was on September 17th, 1993, when I had a change of heart and tried one last time to do something different instead of harming myself. I surrendered my heart and soul and asked God/Source/ to take over and help me heal my life. **National Suicide Prevention Lifeline Call 1-800-273-8255**

I used to be an addict. I was on drugs for 13 years of my life. The core wounds were deep with self-hatred at my center.. The drugs kept me from feeling my childhood pain that I had come into this life with. They kept me from feeling my worthlessness. The best thing my parents did was not to rescue me so that I could hit bottom and rescue myself by choosing to surrender and saying yes to life, saying yes to me, Though it was hard on them and on me, it led to the beginning of my new journey which uncovered my genius.

As I say in my book, *Peace The Flip side of Anger*, the outcome was a happy one "Where once my soul was suicidal and wanted to die, it's now rejoicing, living fully, acknowledging its painful path, the suffering. Each lesson gave me the opportunity to come home to myself, birthing the new, becoming the truth of who I am, unconditionally loving the self whole and free."

I talk about our responsibility to be the love we want to see in the world. Merging heaven on earth into the physical is an inside job that requires a body, a physical body, Yours, and mine and that's how Heaven on Earth is realized. **National Suicide Prevention Lifeline Call 1-800-273-8255**

I am so excited about the Miracle that life is that we are and look forward to building our new world together with you. 2020 is just around the corner and even though we are facing huge challenges ahead there are solutions for everything and we can do anything.

*I Love You All,
