

Hi Friends,

For two years, I have assisted many Entrepreneurs being seen, being heard so they can have a greater impact on sharing their gifts with the world. It's an honor to work with such incredible, gifted, talented Quantum superstars who walk their talk.

I've been working with Dr. Pat, Founder of Transformation Talk Radio on this incredible journey,

and can't say enough about her and the team. The leadership is so foundational to our success so that we can do what we do best. I meet Dr. Pat in person at the KKNW studio on this extraordinary day, which was strategically planned by me. With the Intention to be there on 11.11.2019

I am going to be talking about how 11:11 is a Gateway to Internal Peace.

This is the perfect time to choose your path. You must choose.

We are transcending by the speed of light every ounce of density and limitations within our consciousness, within our being, and within our world. The elimination of suppressed emotions is our greatest liberation in healing the physical body. Freedom from the matrix, freedom from dis-ease, freedom from bondage, that inner prison mirrored to us by the outside world, is the most powerful gift we can give ourselves. We have the most support ever in the history of this planet to come home to our truth: living in harmony with nature. We are in the middle of reaching states of limitless timelines of our choosing, to move beyond the old storylines that have kept us stuck as humanity. Every moment you

are invited to choose often the experience you want to have and surrender every thought, emotion, action, and behavior that is not reflecting your highest intention

I hope you will join us live that day.

[HERE](#) is the link and if you can't be live with us, I will send the replay in next newsletter.

Highlights of this Interview will be:

How do we keep trusting?

How do we deal with negative thoughts?

How do we release Karmic contracts and ancestral contracts.

What you must declare to the Universe.

*Lots of Love,
Kornelia*
