Human Love Protocol*

TAP INTO THAT INNER STRENGTH AND LET YOUR LIGHT SHINE THROUGH!

Hi Friends,

While this path has not been easy. We are walking each other home, and making the world a better place. Tap into that inner strength and let your light shine through,

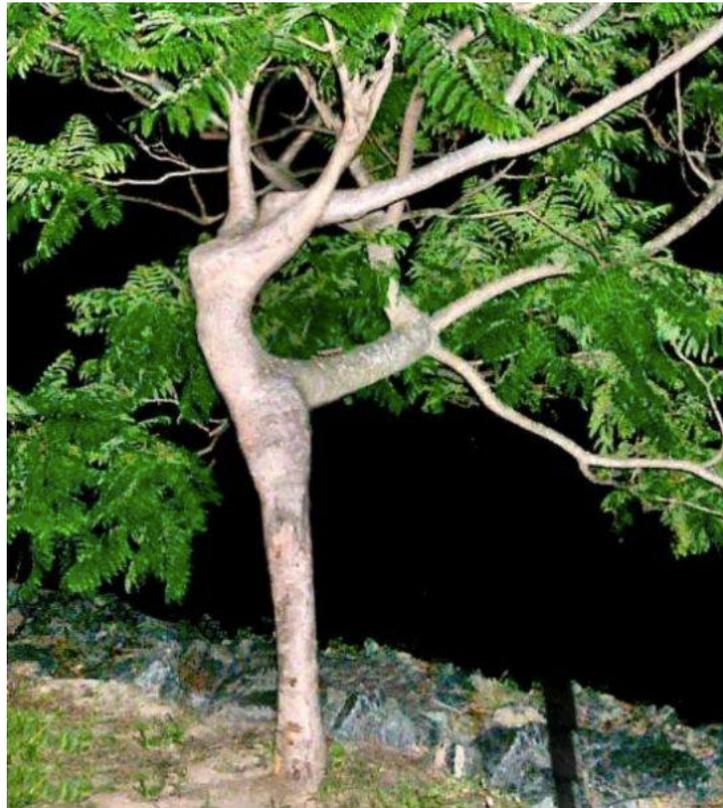

The New Spiritual- Human Love Protocol.

When does the pain stop? **after you feel**, release the old energy, layer by layer the pain stops. You move into a **neutral space** with your being. The wounded child, the one who has been crying for your attention all your life, has now been loved and nurtured by you. The wounded ego has learned to **let go of control** and **trusts the higher self to be lead from the heart**. The victim after many lifetimes of dedicated service work and slavery has been **retired and is now free**. The addict is no longer looking for something to numb

or fill a void, as the addict now has chosen to fill itself with **radical- self-love**, nothing else will do. The wounded child, The Wounded Ego, The Victim, The Addict are no longer playing parts in your movie.

The physical body is my home – it houses my spirit. It's my responsibility to love, nurture and care for this home by thinking positive thoughts, by allowing my physical body to feel all of my emotions, releasing all old suppressed limiting feelings, and by nurturing my body with foods, vibrations, and water that support a thriving environment.

The house my physical body lives in, is a building that is a structure called “home” where I create an environment for my physical body to experience, rest, laughter, music, nurturing, honoring, peace, friendship, feeling loved and cared for, sexually alive, creatively inspired in harmony, and relaxed at home.

This building called my “home,” is standing on the earth which is also my home. It is so bountiful, so vibrant, so sensual, and so full of abundance, so full of prosperity, so full of beauty, and plenty of goodwill. This home is also my responsibility – to be a good steward, infusing it with positive thoughts and emotions, to take positive actions and spread as much peace, JOY, love and light to all. I rejoice in the embodiment of my creative soul as she expresses her infinite expressions of love, allowing her body to thrive, to feel, and create, living in harmony with the earth. All of these homes live within me, it all starts with me – living from the inside out.
