Hello My Beautiful Friends,

I send you so much love and peace,
With all the fear out there we have to shine brighter.
Here is how I'm strengthening my Immune system.

What I'm doing is.....

As a co-creator of Heaven on Earth.

**As an influencer, a life enthusiast, a way-shower, a Miracle worker, a lover of life,
and trust in GOD/Source the Universe.**

I AM

We have to be stronger than the masses!

There is so much fear infused into our collective quantum field.

The Lightworkers, the Rebels, the Positive Thinkers, the Moms and Dads of the world...

**They are all counterbalancing the imbalance by UP-leveling their JOY frequency
by:**

being grateful, feeling peaceful, surrendering to what is, and making the best of the
present moment.

The Reality I AM choosing is.....

The Reality I AM creating is.....

Getting **HAPPIER** -Thinking **POSITIVELY**-Counting my **BLESSINGS**
Taking good **CARE** of myself & my body

Integrative Unity, a sacred space for global interactive online community.

In our weekly meet up groups, people have been defining just what living in faith and trust means to them because they realize nobody is coming to save them. They begin to realize that they, themselves, are the ones that they've been waiting for. They are welcoming and communicating with the savior within. They are practicing trust, living, being and bringing the trust they want to see into the world. It's a daily practice, you know.

My JOY is more powerful than any fear .

I get to choose how to live my life.

If the world ended tomorrow, I would have wanted to live my life in JOY, instead of in fear.

So, to all the media and fear mongers— Talk to the HAND—

I love you all....

Faith & Trust are feelings. And they are all happening now—

Trusting forward and marching for miracles..

Please join me.

When Love is the action the motivation instead of fear, you know God's is here.

Oh, I almost forgot.

I am also doing this...

Marianne Williamson is leading us into the highest vibration.

Thank you, beautiful light of the world, for all this healing light and may this virus now transform itself into the nothingness from which it came. We give thanks, we say Amen and so it is. And so it shall be.

Suicide today is a national epidemic.

Do you know someone that has taken their own life? **Do you know someone struggling with suicide?** What about families that are left behind? This is a wonderful resource and insight into what can happen for the souls that are affected by suicide. Suicide today is a national epidemic. **I related to this article by author Robert Schwartz because I suffered from Suicide half of my adult life and I know of the many interventions that the angels took on my behalf. What was shared in this article is that, if there is an opening for the possibility for the soul to change their mind/heart the Angelic intervention will take place, as it did in my case many times.**

There has to be a soul willingness to heal the imbalance. It comes down to choice and free will. It can be very hard when we see no way out. **I always say that it's not that people want to take their own life. It's that they want to kill the pain.** For me it was that I hated myself, I hated being alive and being here on this planet where there was so much pain. **As a super-sensitive empath, who feels energies and other people. It was really hard for me, to love, to love myself enough, to nurture myself into wholeness and to feel the miracle that love is, that life is and that love has the power to heal all.** [#HeavenonEarth](#). If you are anything like me, falling in love with my life and who I am at my core was not an easy task. My childhood had me well-prepared never to acknowledge myself and to put my own needs aside. I remember a time in my life when I felt so much shame, unworthiness and powerlessness I did not think I could go on with my life and several times I wanted to commit suicide. I was always looking outside of myself for approval. When everything was falling apart around me, I hoped someone would come to my rescue. What a long and painful path it was to claim my worth and love each and every part of myself into wholeness.

Today it is hard for me to imagine that I ever had a thought that was attached to a belief that was attached to an emotion that I was not good enough and that I used to make choices that reflected that belief.

My life's work has been to undo all the old conditioning, old beliefs, and to heal my emotional core-wounds. Through this work, I achieved a high level of self-mastery which I have been able to pass on to many others through my retreats and personal sessions. I enjoy facilitating such events so that others experience a deeper and truer connection to who they are and how extraordinary their life can become at any age.
