I give you the Rainbow Bridge; this past Monday morning sunrise from my office window.

Every morning I ask myself this question.

What reality are you creating today Kornelia?

And then I go about creating the most magical meaningful day as if it was my last day of being alive.

With the energy being so intense, be cautious with how you respond. Most especially to yourself.

I like this quote from Deepak Chopra.

Every time you are tempted to react in the same old way ask if you are a prisoner of the past or a pioneer of the future.

When you walk over the Rainbow Bridge to the other side. You end up in Pioneer Park. As a Pioneer of the new earth, I am reminding you to be like the Elk, pace yourself this will increase your stamina. You may not be the first one to achieve the goal, but you will always arrive without getting burned out.

You are becoming "The Rainbow Bridge".

YOU are becoming the New Earth.

What reality are you creating today ?

What do you need to do to keep yourself grounded?

Save the date—every 2nd Saturday.

The Light Within.

We will be bringing the religion of True Freedom & Self Awareness through Radical Self-Love.

Our focus each week is on unconditional love for the self.

"Only spiritual consciousness - the realization of God's presence in oneself and every other living being - can save the world. I see no chance for peace without it. Begin with yourself. There is no time to waste. It's your duty to do your part to bring God's Kingdom on Earth" -Paramahansa Yogananda

In today's world with so much change happening, choosing love while being faced with challenges is a practice. The face we turn to our own unconscious is the face we turn toward the world.

Carl Jung says "it's a psychological law that what we will not suffer inwardly through conscious recognition of our shadow, we will suffer outwardly as a result of our unconscious projections into the world around us". He thereby gives people the most awesome charge that they can possibly receive

throughout their lives: the withdrawal of their projection upon others, and dealing with their own shadow themselves.

You create your own reality by the choices you make moment to moment. Knowing what our global core values are, like living in freedom practicing compassion, kindness, and offering forgiveness when first lived and practiced within that love has the power to ripple out into communities and the world uplifting all it touches.

This group is about New Thought, Unconditional Love, The Faith Within, and exploring all ways to find greater peace and harmony- NOW. #EckartTolle #CarlJung #Buddhism #Indigenous #Christianity#Hinduism #Spirituality, #HigherConsciousness #SelfRealization #innerpower #simplelife #authentic #staytrue&honest #fillyourcup
