**Hi Clients, Friends and Superstars,**

To help us co-create our new world throughout February, I've created a Daily Blueprint. You can print it out in PDF form and, of course, I'd love for you to add your own Daily Wisdom to it. [Download Your Copy HERE](#)

**February 9, 2021**

Do you know the value of "BE-ING"? How about "being yourself" and enjoying it? Be still, listen, and know who you are. Are you being good to yourself? What's your top tip to change a bad habit?

Many people are suffering from addictions. Yesterday I spoke with a person who took this question into her meditation. Is it me that wants this, or is it the addiction? Her answer; it's the addiction that wants this, not me. She brought the question into the present moment of her awareness to make an empowered choice and

**Living By Vibration**  
We will need to focus on the essentials in order to avoid making errors due to a tendency to accelerate when, in reality, slowing down is the best option.

**February 1, 2021**  
What matters most is who we become. We are the Powers of the Land. Feeling is the language of the soul. Feel your way forward, as you plant your Seeds of Gratitude in the foundation of the land. What seeds are you planting that will surely yield you to a harvest of beautiful abundance? What are you needing?

**February 2, 2021**  
The perfect day to practice living in No-Time. Bring your energy into the Eternal NOW. Remember, 450 years ago we did not live by clocks. We lived our lives by Sunrise and Sunset. What wisdom would you like to add here on this day that will help us all raise our vibration?

**February 3, 2021**  
Let go of any thoughts, habits, and patterns that do not serve your Truth so you can be Free & Sovereign. Being... Super Being, living the Truth of who we are and in Harmony with the Earth. What is your favorite "forgiveness practice"?

**February 4, 2021**  
It's great to get together and organize and to share resources with others. What resources do you have that are fun and easy for you to share? As you can see I love writing and I love sharing. I love giving all the positive energy to our community. If you are looking for community you can join us here. [Subscribe to my membership here.](#)

No matter what the outside world is doing, be a Tower of Power in your own life. Listening, sensing, feeling, and intuiting are only a few of your many Superpowers. The goal is to raise our consciousness and grow... [Inviting Grace.](#)

**February 6, 2021**  
One small step towards... your health, your abundance, your business, your relationships, your world. This is forward movement. One step at a time. Be patient. What makes you the happiest?

**February 7, 2021**  
It matters which consciousness that you approach your destiny and your challenges with. Allow me to remind you of just how well-equipped you are and how magnificent you are. (Truth. Are you bringing up what you said you would do? Will you?)

**February 8, 2021**  
Raise your daily spirit of sharing your intelligence with the world. You are Light. Shine bright like a diamond. What do you want to grow creatively?

override the addiction with her free will. She is asking her Inner Self the question so she can make a healthy choice and choose love for herself instead of the addiction. At the root of all addiction is a lack of love for Self.

**Thank you to Eve and Connie for your appreciation of my work and for sharing it with others.** It does mean a lot to me when you find value in what I share and when you take **your valuable** time to let me know that it matters to you. It's an honor and a pleasure to express the love, the truth, the magnificence of who we are, and what we are here to do.

**Evolving Consciousness.** The rising up of a tribe that loves doing what no one thought we could do. The script: To create Heaven on Earth... to return to unconditional Love and Peace, to live in Freedom, to embody Unconditional Love for self and all, to offer Self-Acceptance, and to create Paradise on Earth.

## Prayers UP

For "B", for all the souls, and all the people out there that have taken their own lives. Prayers Up for all that have struggled with the negativity and chose death by suicide. Prayers Up for all the people that take action and use violence against themselves because they see no other way out. Prayers Up for all the families that are left behind to continue this precious life without them. Prayers Up for all the souls that are facing death by suicide NOW. That struggle is real! May YOU receive the strength, the realization, the love, the support, the connection in knowing that YOU matter and that without YOU, there is great loss. May all you beautiful souls find your way. Please know that you are one with God and that there is no separation.

## My Ascension Journey

As a way-shower on the Ascension path and a Pioneer of the New World, it's my honor to model the New Human template of self-realization. The full Birth of the Divine Feminine in form. Self as Source and Source as Self. Becoming my Authentic Self has now been the Inner Work over many lifetimes of training. This particular lifetime was filled with so much pain that was absolutely necessary to

overcome, that it was "iffy" whether or not I was going to make it.

I don't look outside of myself for answers or approval, **as I remember** that all the answers lie within. I had a **very many painful** experiences that led me to look inside. Along the journey of coming home to the Truth, I have cultivated an intimate relationship with Source, knowing there is no separation between us.

There were many times that suicide and self-hatred were staring me in the face. **The fact that I am still alive today is a miracle** in itself! It wasn't easy to overcome my many 'Dark Nights of the Soul' and to unify/harmonize all of the places within myself where I felt separate from my Divine Source. I've realized that I had many **angels working overtime** to help keep me safe and support me in my mission in the birthing of the New World, and in walking the path of Self Mastery.

We have the right to experience freedom in all forms of expression and it's my honor to live this core value, as you can tell by my writing. **The Leadership of the Divine Feminine in her full glory is my passion, my mission.** Can you imagine a woman claiming her birthright in full honor and glory? **Lifetimes ago** we were hung and lost our lives for '**living our medicine**' and '**speaking our truth**'. This is a lot to overcome for each and every one of us and very courageous on behalf of all of us.

Never before has this been achieved, whereupon women and men both have the ability to realize the Truth of who we are. This is integrated love source god in form.

Let there be Peace on Earth and... let it begin with me!

Peace, Love, & Liberty for All.

## How to live in the world today

Watch [HERE](#)

Pia , Cullen and myself meet in the early part of every month to share with you an integrate perspective of higher consciousness and how to live in the new earth.

This is how the discussion started in the first 2 1/2 minutes.

It's like there are two worlds playing out some know what's going and some don't. I find that even those who know what's going on, are having a challenging time right now, dealing with the negativity that's that is being projected and what we're exposed to, how do you feel about that?

I would say absolutely; it seems that the more sensitive of us are actually being impacted more than anyone else, we noticed that a lot of times, it seems that everybody we talk to is having issues rise to the surface it feels like the energies that are coming in that we know are here to transform us and to help us make us stronger, better, wiser, we understand that the energies of that purpose are they pull anything that is residual dark or trauma to the surface so that our weaknesses can come up to be healed or transformed so everybody in our opinion is having some challenge at this time we're hearing.

## Live Chart Reading

Watch [HERE](#)

In this video, I got the idea to share with you a live reading that Pia did on me. I had no make up on just got back from my morning walk and we began. It's still dark outside. Being open and vulnerable is the new strength. I hope you find the value in getting to know yourself better. If you want to get a chart done with Pia her info is underneath the youtube description. I highly recommend it.

## The Power of a Smile.

The other day I posted this photo along with a quote on Facebook.

Pretty much everyone made a comment on the smile.

They all touched me deeply, especially this one.

*"Un sorriso che trasmette luce e forza a tutti, grazie"*

*"A smile that transmits light and strength to everyone, thank you."*
